Customer Journey Map

The journey below is derived from the functions present in app.py.

Phase of Journey	Stage 1: Enter Data	Stage 2: Review Dashboard	Stage 3: Act / Export
Actions	Add income or expense; choose category and note.	Review income, expense, balance, spending health and category chart.	Set budget; follow recommendations; export/import CSV; review history.
Touchpoint	Income / Expense forms	Financial overview dashboard	Budget dialog, History, CSV actions
Customer Thought	"I need to record this transaction."	"What is my current financial position?"	"What should I change or share?"
Customer Feeling	Focused	More informed	More in control
Process Ownership	User	User + application calculations	User + application utilities
Opportunities	Make entry quick and clear.	Present understandable metrics and charts.	Provide useful recommendations and reliable export/import.
