

Project Executable Files

Date	30/09/2026
Team ID	SWTID-2026-7404
Project Name	PocketSmart AI
Maximum Marks	2 Marks

File / Component	Purpose / Source Information
app.py	Main executable Python application. Creates the SQLite database/tables, implements calculations, recommendations, CSV operations and Tkinter UI.
requirement.txt	Lists streamlit and google-generativeai in the supplied repository.
README.md	Contains setup instructions, project structure, backend/frontend descriptions and run instructions.
pocketsmart_v2.db	README project structure describes a data/pocketsmart_v2.db database; app.py itself uses pocketsmart_v2.db as DB_NAME in the current file.
assets/logo.png / icons/	Listed in README project structure.
docs/project_report.pdf / screenshots/	Listed in README project structure.

Execution command from README

python app.py
