

Demonstration of Proposed Features

Date	30/09/2026
Team ID	SWTID-2026-7404
Project Name	PocketSmart AI
Maximum Marks	2 Marks

Feature	Demonstration Steps	Expected Evidence
Income / Expense	Enter transaction, submit, return to dashboard	Totals update and transaction is stored
Budget	Open Set Budget, enter value, save	Cap target and usage update
Spending Health	View dashboard after transactions	Percentage, score and status appear
Recommendations	View recommendation panel	Rule-based insight text appears
Chart	Add expenses in categories	Donut chart shows category breakdown
History	Open History and use filters	Treeview shows matching records
CSV	Export then import a valid transaction file	CSV is created and valid rows are imported
